Planning and Development Review Department**

DATE: November 5, 2012

**RE: Council Comprehensive Planning and Transportation Committee-
Request for Information**

At their November 5, 2012 Council Comprehensive Planning and Transportation Committee meeting, Council Member Morrison requested several items related to the State of Texas process for Public Private Partnerships. I have attached two documents in response to this request. The first is Chapter 2267 of the Texas Government Code, originally approved as Senate Bill 1048. The second is the Texas Facility Commission Public Private Partnership Guidelines which describe the process for submittal and review of proposals.

Council Member Morrison also requested additional information regarding the roles and responsibilities of the Texas Facilities Commission and the Texas general Land Office. Staff will continue to research this request and hope to have more information to provide in the near future.
